

90° ANODIZED GLADHANDS

The Industry's **FIRST** 90° glandhand. Tectran's premium corrosion resistant gladhands are now available in a 90° angle mount designed to support horizontal connections. The perfect Solution for applications where gladhands are mounted very low on the trailer. The 90° body design will assist in raising the air lines, keeping them from getting caught on the quarter fender, stairs, deck or other tractor mounted accessories. Patent Pending.

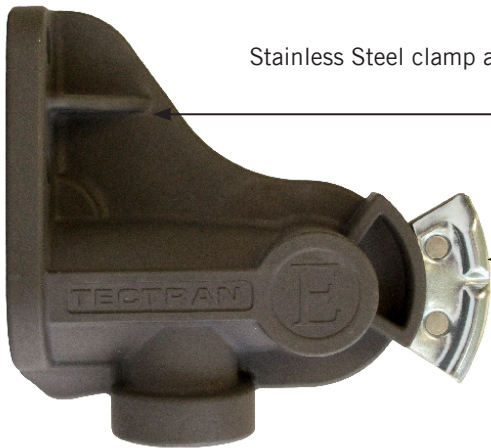

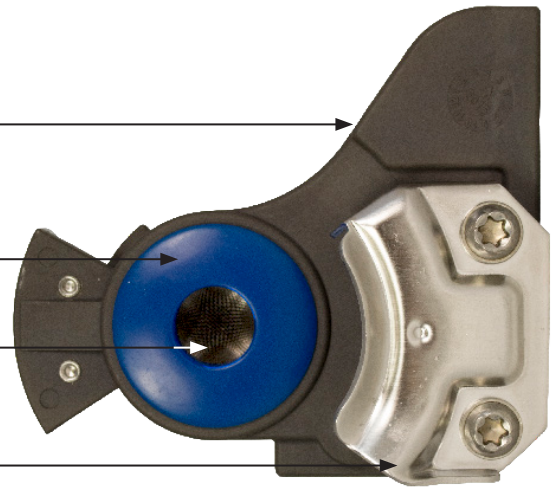

Anodized Aluminum cast body

101119 series polyurethane wide lipped seals for added durability

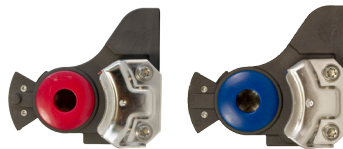

Stainless steel fine mesh filter

Stainless Steel clamp and hardware

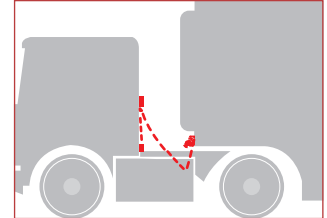

Sturdy, barrel type body design & gusset provides additional support against side pull force. Heavy duty body will support the weight of horizontal connections.

Plated striker plate

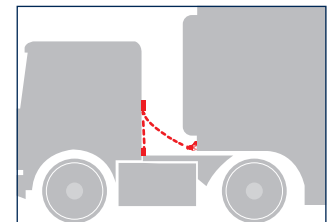

PROBLEM

LINES ROUTED INTO TROUBLE AREAS

SOLUTION

90° ROUTING KEEPS LINES SAFE
