

# MODEL 9 AIR DRYER

The Model 9 Air Dryer will keep your air brake system free of contaminants to maintain efficiency and extend the life of your downstream air devices.

- Long purge cycle and almost 4lbs of desiccant ensures more contaminant & moisture removal
- Dessiccant cartridge long life extends maintenance intervals
- Larger purge volume eliminates the need for an additional purge tank
- Thermostatically controlled heater
- Soft seat purge valve design on dryer & applicable kits
- NEW! - No hidden core costs

Part No.	Stk Code	Description
AT065225	14323	Dryer only - 12 volt
