PROFESSIONAL PARTS KITS

DURABLE LIGHTWEIGHT
KITS FOR PARTS STORAGE

TECTRAN offers these convenient, rugged, lightweight parts kits providing a portable, organized way to move parts to where you need them.

CAB 12 - Solderless Wire Terminal Assortment

This convenient wiring repair kit includes:

- 500 assorted commonly-used solderless wire splices and connectors for typical wire gauges and terminal sizes
- a handy wire stripping and terminal crimping tool
- 200 common length closable cable tie straps

CAB 13 - Heat Shrink Wire Terminal & Tubing Assortment

For external wiring repair where you need weather-resistance and strain relief from heat shrink terminals and tubing. This kit includes:

- 500 assorted commonly-used solderless wire splices and connectors for typical wire gauges and terminal sizes
- 1/4", 3/8" and 1/2" dual-wall black heat shrink tubing with a meltable, inner layer of adhesive for maximum wiring protection
- 3/16" blue and 1/4" yellow single-wall heat shrink tubing for 10-12 gauge and 14-16 gauge wire splices
- a handy wire stripping and terminal crimping tool
- a butane torch & heat deflector for shrinking terminals and tubing

CAB 16 - Battery Hardware Assortment

Make or repair starter and battery cables. This kit includes:

- 100+ assorted commonly-used lugs and terminals for typical cable gauges and terminal sizes
- 3/4" & 1" heavy-wall heat shrink tubing with a thick meltable inner adhesive for maximum insulation & weather-resistance
- a handy cutting tool
- a wire brush designed for removal of dirt and corrosion build-up on terminals

CAB 17 - Brass Fitting Assortment

Always missing the fitting you need? This kit includes:

- 800+ assorted commonly-used 1/4" and 3/8" fittings
- DOT-rated nylon tube and copper tube fittings, nuts, sleeves and tube inserts
- reusable hose end fittings with springs and extra sleeves for 3/8" rubber hose
- pipe bushings and adapters
- frame or bulkhead fittings

CAB 18 - Clamp & Clip Assortment

Install cable, hose and tubing or make hose connections. This kit includes:

- 300+ assorted commonly-used parts of various sizes
- rubber covered steel clamps for vibration and chafe resistance
- standard nylon tube clamps
- frame clips and standard length cable tie straps
- 1/4" through 2" worm-gear hose clamps
- 3-hole clamps and nylon hose spacers for hose and cable suspension

Fuses - Be sure to look for other Tectran brochures for information on our assortments of popular glass and blade-style fuses.

Additional Parts Kits - For larger, professional-duty parts assortments, please refer to the Professional Parts-Kits brochure.
