TECTRAN Seal Tool

Part No. 10111T
Stk Code 16241

1. Removing an old seal...

Insert TECTRAN Seal Tool (or other device) into the inside diameter of your seal.

Firmly pull upward to complete extraction of your seal.

2. Installing a new seal...

If upon installing the new gladhand seal the center hole appears out of round use the TECTRAN Seal Tool to help seat your properly into the groove of your gladhand.
